

Reward the work that earns *better health*

A turnkey system for assigning, tracking, and awarding incentive points across any wellbeing activity. Concentra runs the program — your team distributes the rewards.

01	02	03	04
Assign	Track	Award	Distribute
Activities & point values	Real-time member progress	Points when thresholds hit	Client fulfills the reward

INCENTIVE MANAGEMENT

*You set the strategy.
We make that happen.*

THE SYSTEM, END TO END

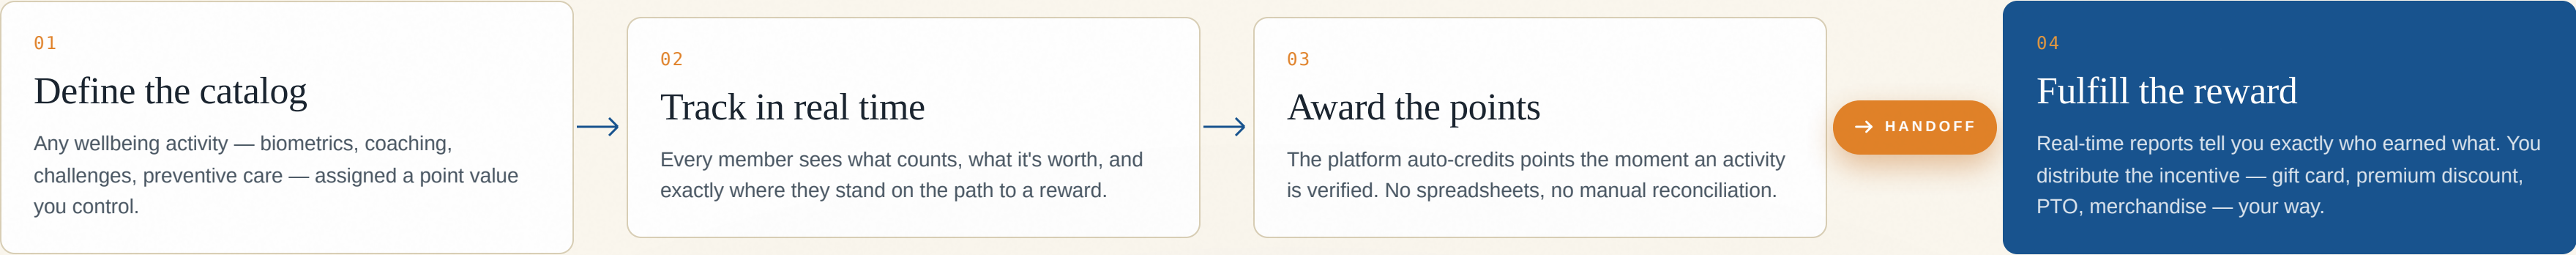

Every point tracked

Every reward earned

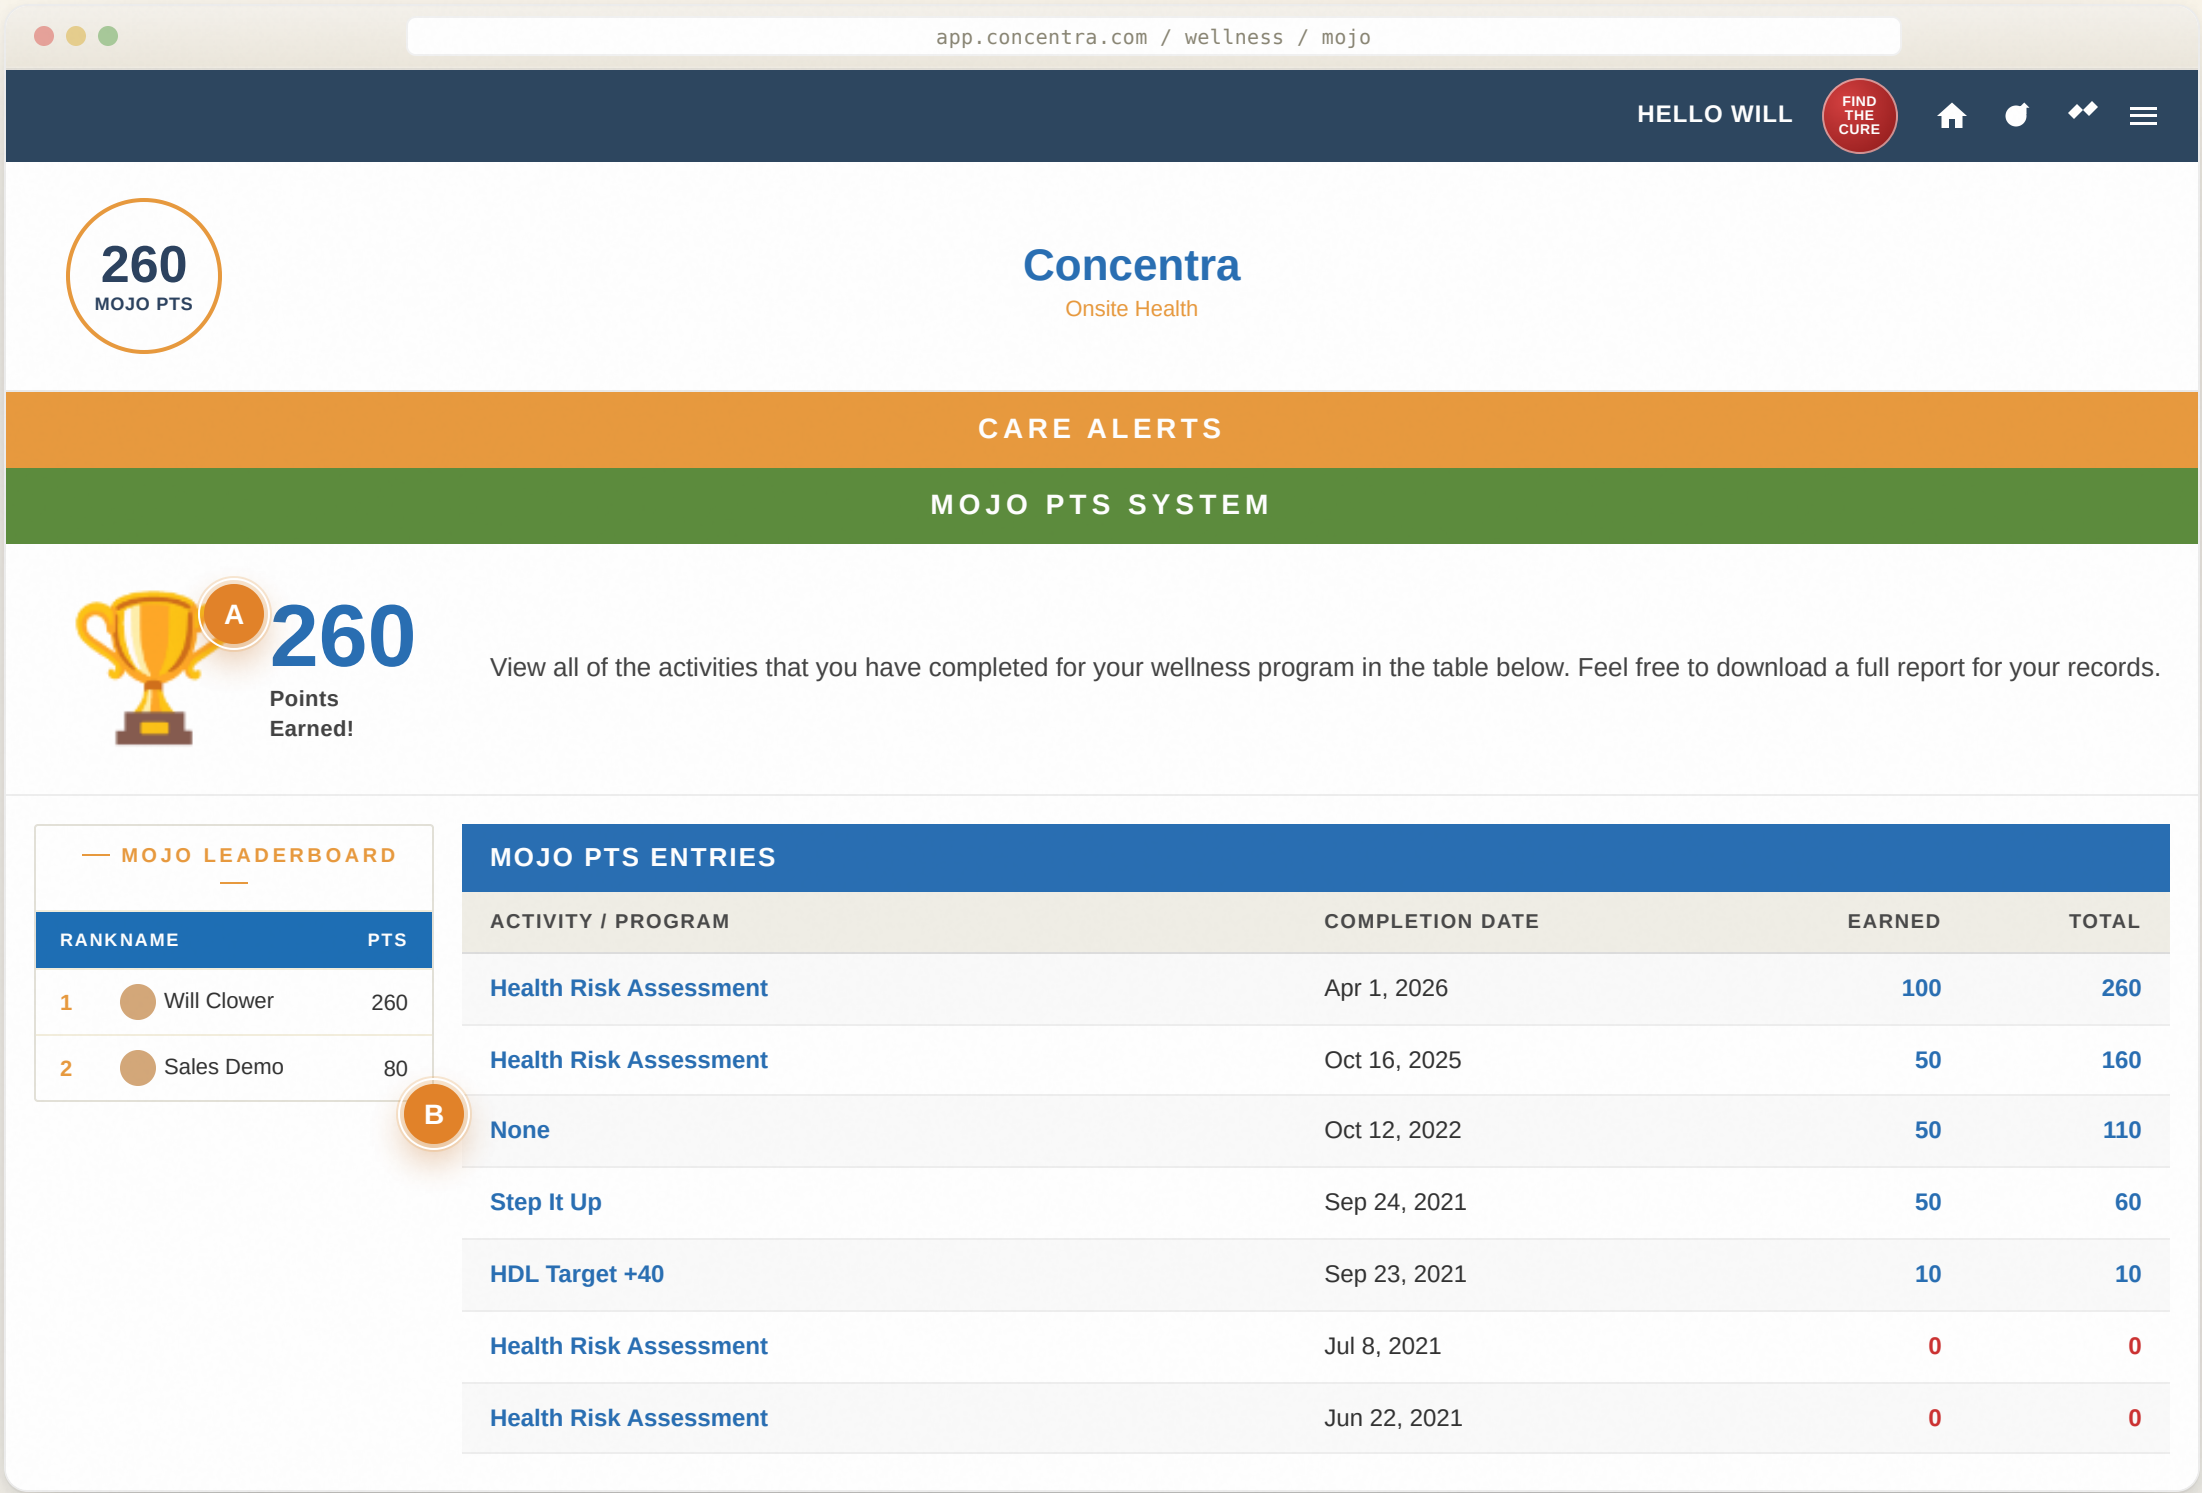

Concentra provides the complete administrative platform behind your incentive program — defining the catalog of awardable activities, tracking what each member completes, and awarding MOJO points the moment a threshold is met. When points are earned, your team fulfills the physical incentive on your terms.

WE MANAGE THE PROCESS

YOU CUSTOMIZE THE AWARD

01	02	03	04
Assign	Track	Award	Distribute
Activities & point values	Real-time member progress	Points when thresholds hit	Client fulfills the reward

PERSONAL MOJO RECORD · EVERY ACTIVITY, EVERY POINT EARNED

PERSONAL RECORD

A clean accounting *For every member*

The MOJO page is each member's personal ledger — a detailed, itemized record of every activity completed, every point earned, and how those points are accumulating toward the next reward.

WHAT IT IS

A transparent, line-by-line record of the member's points history with totals shown.

WHAT IT GIVES THE MEMBER

Trust. They can see exactly what they've earned, what's still on the table, and why. No black box.

WHAT IT GIVES THE CLIENT

Fewer support tickets. Members self-service their own status instead of asking HR or benefits.

- A Total points earned, prominently displayed
- B Itemized activity log with point values

FOR THE CLIENT TEAM

Real-time visibility *across your population*

The admin console gives the client real-time visibility across the entire member population — who has earned what, when, and how to export it. This is the data layer that drives your incentive distribution.

WHAT IT IS

A live administrative dashboard with filterable views and on-demand report exports.

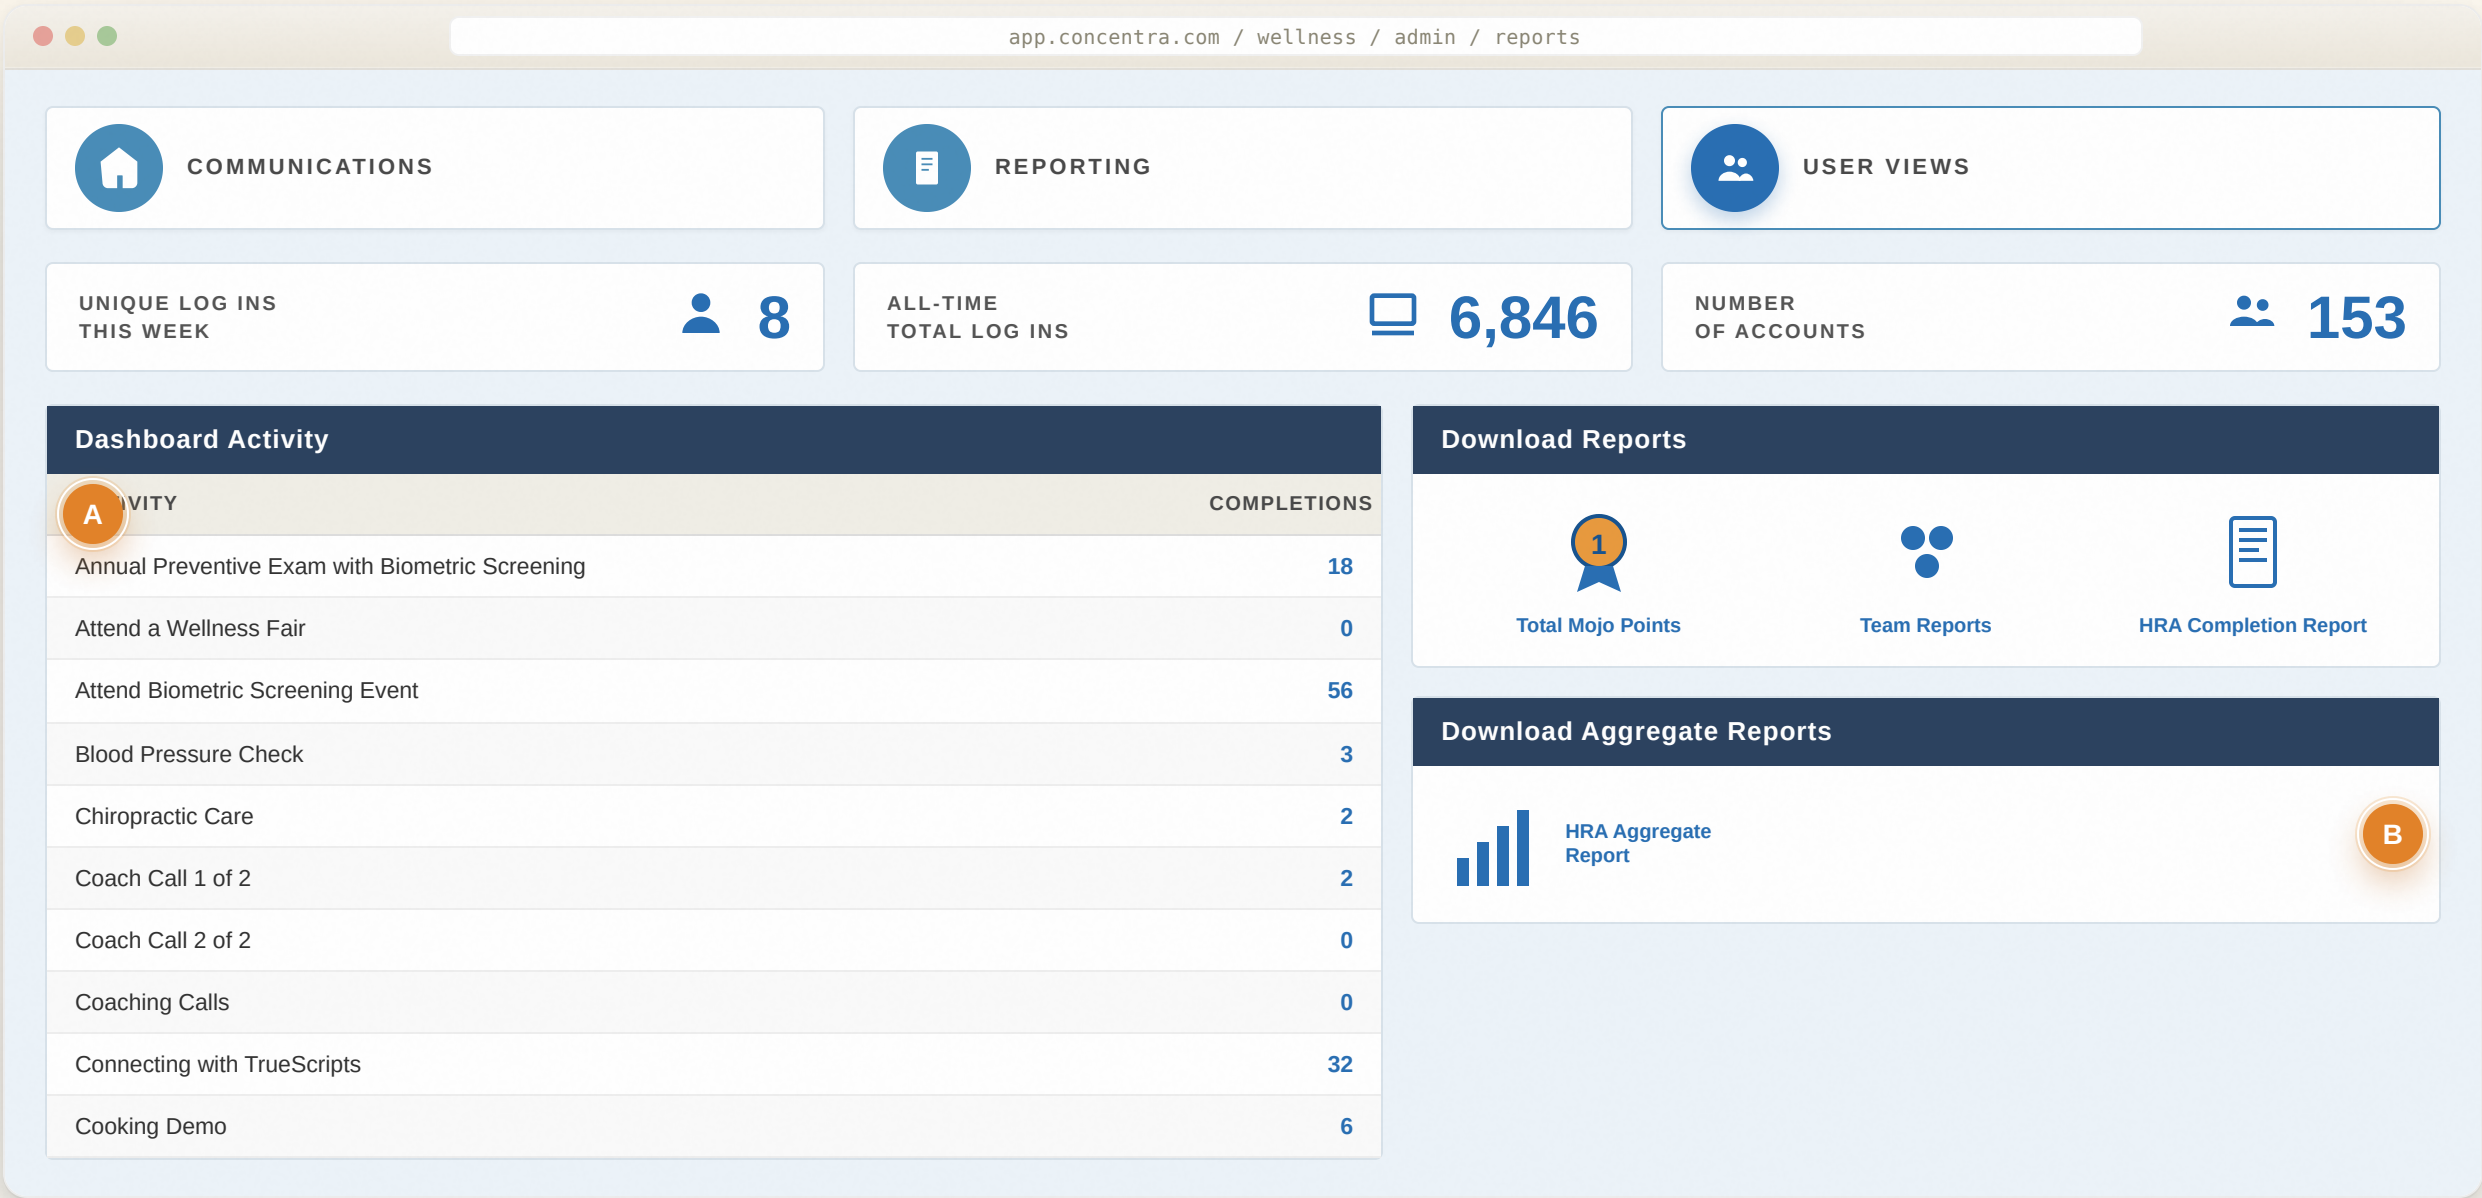

WHAT IT GIVES THE CLIENT

A single source of truth. Pull a payout roster on Friday, reconcile last quarter, audit any account.

WHAT IT GIVES THE CLIENT

Operational independence. No tickets to Concentra to get a report — your team pulls what they need, when they need it.

- A Real-time stats across the population
- B On-demand exports for fulfillment workflows

AT A GLANCE

What our incentive system *brings to the table*

A plain-language summary of what Concentra delivers — written so your procurement team can lift it directly into an RFP response.

01

Program design

✓

Activity-agnostic catalog
Award points for any wellbeing behavior — biometrics, coaching, preventive care, fitness, education.

✓

Client-defined point values
You set the worth of every activity — Concentra applies it consistently across the population.

✓

Configurable thresholds
Set point totals required for each reward tier, with flexible plan-year boundaries.

02

Member experience

✓

At-a-glance points balance
A persistent MOJO Points indicator shows current standing every time the member logs in.

✓

Full awardable-program catalog
Every counting activity is surfaced — members never have to ask whether something is worth points.

✓

Personal points ledger
Self-service MOJO page itemizes every point earned and every point at stake.

03

Administration

✓

Real-time admin reporting
Live dashboard of population-wide point earning, filterable by activity, cohort, or date range.

✓

On-demand exports
Client team pulls payout rosters and audit files without filing a ticket to Concentra.

✓

Client retains fulfillment
Concentra manages the program; the client distributes the incentive on its own schedule and terms.

01
